FIENDISH OUTRAGES!

An Inoffensive Citizen Taken From His Hotel Room, Cruelly Beaten and Tarred and Feathered.

CROOKSTOWN, Minn., May 3.—A fiendish outrage was committed here Wednesday night, on the person of an inoffensive citizen named Jake Zeinholt. He was taken from his room at the Cleveland house, bound, gagged and unmercifully beaten. Then he was taken to the outskirts of the town and tarred and feathered. A rope was placed around his neck and he was dragged a mile and left for dead. He recovered sensibility and informed the police. He now lies in a precarious condition, with little hope of his recovery. His assailants were arrested and jailed.

MARION, Ky., May 3.—Masked men, supposed to be White Caps, took Alfred McDowell, living in the eastern portion of the county, and unmercifully whipped him. Robert Kemp, a neighbor of McDowell's, charged him with stealing a bag of wheat. McDowell sued Kemp for damages, and this is supposed to be the reason for "White Capping" him.

EDGERLY, La., May 3.—A merchant named Melwick, living at Blair, La., shot and killed his wife and two children yesterday afternoon. He then set fire to the house and after waiting until the structure was thoroughly enveloped in flames he shot and killed himself.

JACKSON, Mich., May 3.—In the trial yesterday of R. Irving Lolemir, charged with the murder of his mother, the defendant was on the witness stand all day and subjected to a most searching cross examination. The remarkable nerve of the witness never deserted him.

THE OKLAHOMA BOOMERS.

Trouble at Guthrie Over the Laying Out of the Streets—Miss Daisy is Shot.

GUTHRIE, I. T., May 3.—A strong under current of feeling was displayed here yesterday over the plat of the city as laid off by the city council. It appears that in order to satisfy the greed of certain settlers some of the streets were made much narrower than others and some of the blocks twice as long as others.

This plat of the city was made public yesterday. The marshal, who, by the way, has secured two corner lots for himself, began yesterday to clear the streets of such obstructions as tents and frame buildings. As a consequence some have become suddenly aware that they are living in the streets. Those that were forced out of the streets, immediately proceeded to jump other people's lots. Several were hung in effigy. No trouble occurred, however, and it is safe to say that the good sense that pervades the community will prevent any serious affray.

Miss Nan Nannito Daisy, the Oklahoma lady boomer, was shot through the arm by a Santa Fe engineer, named Stafford, who had jumped her claim. Miss Daisy was making a visit to her claim after filing on it, and w s met by Stafford, who fired three shots at her. She is not seriously injured, however. Miss Daisy has friends who have resolved to see her rights protected. It is said Stafford abandoned his engine before 12 o'clock, Monday, in order to stake out the claim.

THE CHICAGO ANARCHISTS.

They Will Unveil the Haymarket Monument, May 30.

CHICAGO, May 3.—On the 30th of May the Haymarket monument is to be unveiled, and that the anarchists are already preparing for the event is evidenced by the issuance of an inflammatory circular, copies of which fell into the hands of the police to-day.

The circular reviews the history of the Haymarket tragedy and asks the anarchists not to forget the fate dealt out by the law to the martyrs who were hung.

The Brewers's Trust.

ST. LOUIS, Mo., May 3.—The brewers's trust is now an established fact. seventeen of the twenty breweries in the combination, and the three outside, the Anhouser-Bush, Lemp and Oberts, have signed to maintain rates for two years. The trust yesterday purchased the Schilling-Schneider brewery for $76,500 and took charge of its business.

Christian Endeavor.

RHINEFIND, Ill., May 3.—The First Methodist church was crowded this morning, when the third annual convention of the Young People's societies of the Christian Endeavor of Illinois was called to order. There will be three sessions daily of the convention until Sunday night.

E. A. E. HACKETT, Editor and Proprietor.

FRIDAY, MAY 3, 1889.

THE new state laws will be declared in force next week by proclamation of Governor Hovey.

MICHIGAN'S high license law went into effect May 1. New York, New Jersey, and Indiana enjoy, among the northern states, the distinction of being the only ones where there is little or no restriction on the liquor traffic.

THE promised telegraphic competition in Fort Wayne is not to be realized. The Western Union and Postal companies have adopted uniform rates and that is the first step towards consolidation. The Western Union has a great faculty for overcoming trifles.

IN addressing the police force at Indianapolis, the other night, Police Commissioner Henderson, speaking for the metropolitan board, counselled the officers to "a strict observance of the law in its administration without fear or favor." How would something like that sound in Fort Wayne? The worst of it is we need a few men like Mr. Henderson.

AMONG the state governors in the centennial parade, at New York, Governor Hill was voted the most popular, Governor Bulkeley the handsomest, Governor Biggs the most patriarchal, Governor Ames the most indifferent, Governor Gordon the most soldierly, Governor Green the most carefully attired and Governor Beaver the most observed. Where was Governor Hovey all this time?

FROM every part of the country come tidings of strikes. The wage workers are not reaping the harvest that protective tariff orators painted for them last fall and this has a great deal to do with the trouble. The future is pictured to the toilers by the republicans in its brightest form. Their hopes and plans swell accordingly, but when they reap only broken promises and realize the deceit, the workingmen very naturally turn to force from monopolies the proffered reward.

A VERBAL order has been issued by Postmaster General Wanamaker which prohibits changes in fourth-class postmasters, except for incompetency or bad management, unless the incumbents were appointed two or three years ago. Mr. Wanamaker says that he was induced to direct a stop in changes of postmasters appointed during the past year by learning, when it was too late, that a lot of republicans had been removed unwittingly. They are finding a good civil service record after Mr. Cleveland.

THE New York papers continue to devote much space to the orgies at the inauguration ball, and more and more is the shocking debauchery and shameless conduct becoming known. The ball seems likely to go down in history as one of the most disgraceful affairs ever known, and the festivities generally, were of a character to excite criticism. Even the G. A. R. officers insist that some of their comrades exchanged courtesies with the ex-confederate soldiers. It is a pretty row altogether.

THE New York *World* remarks that although Mrs. Cleveland is out of office, so to speak, it is evident that she is still to be a factor in politics and society. At the centennial ball she was the recipient of much attention. When she departed from the ball-room she received more consideration than the Harrisons. The ladies rose en masse and threw their boquets in front of her and around her. She literally left the ball upon a roadway of flowers. This was woman's impulsive tribute to womanly grace. But then the men all cheered, too.

SECRETARY JOHNSON, of the state board of health, has returned to Indianapolis from a trip through northern Indiana. He visited several public institutions, among them the Michigan City penitentiary, the Logansport insane hospital and several county jails and poor asylums. He expressed himself as measureably well pleased with his observations at the penitentiary and speaks in higest praise of the Logansport insane asylum. In looking into the poor asylum in Carroll county he found a frightful state of affairs. The insane patients are confined in a cell reeking with filth and the surroundings are described as revolting.

THE legislature passed a law regarding the publication of legal advertisements in newspapers that is of great interest to the residents of cities. It provides that in cities of 10,000 and over, all liquor license notices, city legal publications, sheriff's sales, delinquent tax sales and administrator's sales shall be published in a daily newspaper; provided the land to be sold lies within the city, or the applicant for license lives in the city. Heretofore all such publications have been made in weekly newspapers. The new law has an emergency clause, and has therefore been in effect since the middle of March.

POSTMASTER GENERAL WANAMAKER has instructed the postmasters at all free delivery posoffices in the country to furnish to the dead letter office a list of streets, avenues and alleys with the highest and lowest house numbers on each, for the use of the department in revising the street directories for free delivery offices. The street directories now in general use in the dead letter office and boring houses in Fort Wayne, and every other city, for that matter.

ON THE WABASH.

What the Gossips Are Saying of the Railroad Men.

Firemen Pugh and Brennan are off with matrimonial intent.

Fireman Gee and wife rejoice in the birth of a brand new son.

Fireman Geo. W. Adams has resumed work and is on the 1561 with Gunton.

Engineer Fisher and Fireman Edwards have been assigned to the 1050 just out of the Fort Wayne shops.

The grand ball to be given by the Andrews railway brakemen occurs this evening, and it promises to be a very pleasant event.

The stars and stripes floated aboved the office of General Foreman McClure, at Andrews, last Tuesday, as a centennial commemoration of the inauguration of the first president of the United States.

A fine mirror, 34x54 inches, nicely decorated with hand-paintings, and a large handsome rocker, were recently presented to Mrs. J. H. McClure, wife of the general foreman at Andrews, by her many warm friends, for which she extends heart-felt thanks.

Brakemen have been assigned as follows: McDermet and Collins with Hedges; Trowl with Adams; Granger with Whitaker; Hartwick with Martin; Leonard with Carr; O'Mara with Riley; Wood and Dennis with P. Fording, and Needham and Rhamy with Morgan.

Early yesterday morning a car loaded with cotton, standing on the Wabash side-track at North Manchester, was discovered to be on fire, and while a few bales were saved, the remainder of the consignment, together with the car, were consumed. The odor of burning cotton filled the air for several hours before the fire was discovered.

G. P. Roberts, of Lafayette, has been appointed depot master at the Toledo union depot, to succeed W. H. Osgood. Mr. Roberts has been connected with the Wabash many years as line-man in the telegraph department, but was badly hurt a few years ago by being struck by a bridge while riding on top of a freight car, since when he has been unable to do much. He took up the duties of depot master this morning.

HONESTY AND INTELLIGENCE.

It pays to be honest, you say.
Granted.

Yet how many are dishonest through ignorance, expediency, or intentionally. One can be dishonest and yet say nothing.

A clerk who lets a customer buy a damaged piece of goods, a witness who holds back the truth which would clear a prisoner, a medical practitioner who takes his patient's money when he knows he is doing him no good,—all are culpably dishonest.

Speaking of the dishonesty of medical men reminds us that only the past week there has come under our personal observation a form of dishonesty which is almost too mean for narration.

It is generally known that doctors bind themselves by codes, resolutions and oaths not to use any advertised medicines. Now, there is a medicine on the market which, for the past ten years, has accomplished a marvelous amount of good in the cure of Kidney and Liver diseases, and diseases arising from the derangement of these great organs,—we refer to Warner's Safe Cure. So widespread are the merits of this medicine that the majority of the doctors of this country know from actual evidence that it will cure Advanced Kidney Disease, which is but another name for Bright's Disease.

The medical profession have put themselves on record as admitting that there is no cure for this terrible malady, yet there are physicians base enough and dishonest enough to procure Warner's Safe Cure in a surreptitious manner, put the same into plain, four-ounce vials, and charge their patients $2.00 per vial, when a sixteen-ounce bottle of the remedy, in its original package, can be bought at any drug store in the world for $1.25.

Perhaps the doctor argues that the cure of the patient justifies his dishonesty, yet he will boldly stand up at the next county medical meeting and denounce Warner's Safe Cure as a patent medicine, and one which he can not and will not use.

The fact is that the people are waking up to the truth that the medical profession is far from honest, and that it does not possess a monopoly of wisdom in the curing of disease, doctoring the many symptoms of kidney disease, instead of striking at the seat of disease—the kidneys themselves—allowing patients to die rather than use a remedy known to be a specific, simply because it has been advertised, and when patients are dead from Advanced Kidney Disease, still practicing deception by giving the cause of death in their certificate as pneumonia, dropsy, heart disease or some other accompanying effect of Bright's Disease.

All this is prima facie evidence of incompetency, bigotry and dishonesty.

We speak but the truth when we say that Messrs. H. H. Warner & Co., have done a most philanthropic work for the past ten years in educating the people up to the knowledge they now enjoy, especially of maladies growing out of diseases of the Kidneys and Liver, and are deserving of all praise for their honesty and straightforwardness in exposing shams and dishonesty of all kinds.

HOW HE PLAYED LADY MAID.

Mr. Goodman, in the sudden absence of his wife's maid, attempts to help her on with her new winter dress.

He—You just see if I can't help you just as well as that blamed English maid. Confound it, after I've helped you once you'll be wanting me all the time, see if you don't.

She—Well; put it on carefully now over my head. Look out for my hair; I don't see what possessed me to do it up before I put this thing on, though I couldn't have raised my arms, I suppose, afterward. Look out, there's a hook caught in my hairpin. For heaven's sake, Charles, get it one way or the other. I'm stifling, and my hair will be down. There now, that top steel is too high and the cushion interferes with it. Suppose you could get the cushion out? Rip it, pull it, anything! Don't you see it's 8 o'clock? Got it out? Can't you do it? Pull it, I tell you! All right. Now see if it looks too flat. Well, hook it, then. Yes, you can, too; it's only a patent hook. Snap it! There, now, hold it so I can get my arms into the sleeves—not way up there—do you take me for a contortionist? Oh, I never can get those sleeves on—grab hold of the arm-holes with both hands, Charles, and give it a good pull up onto my shoulder—tell me if it begins to burst—does it? The veins in my hands will burst, I believe—open that window, will you?—there, now, give me the ends of that belt, will you? —dont tell me, Charles, that you've twisted the waist and I've got to take it off again! Why, how could you have been so stupid? Where were your eyes? No, you can't pull it off that way—pull it off just as you do a glove—there, now do exert yourself to get it right this time. Open that window a little wider, will you? What is the matter? Caught something? Well, never mind. Unhook your watch and let the chain hang on the dress—it won't be likely to fall off, you musn't tear that lace—well, I'll get you another one if you lose it—do get those sleeves on again—there, now, pass me the belt. Oh, that fool of a dressmaker, she's got this so tight, when I told her I wanted to be comfortable. Open that door, will you, so there will be a draught. Now see if you can hook this waist up. No; begin at the bottom. Why, don't you see the hooks and eyes alternate on each side, so as to make it hold? Can't you get it together? Why, pull; I can stand it. Torn your finger nails out? Well, for heaven's sake, Charley, don't notice it now. I've got something we'll put on it after we get home. Can you hook that last hook up on my left shoulder, and then that one down on my right hip? Now, get a good, firm hold of the bottom of my skirt and give it a pull down all round. Now do get out of the way and let me look in the mirror. Heavens! I look like a perfect dump. Tip the mirror up a little more, will you? No, not that way—the other way—and go get me your hand-glass, won't you? Turn the gas up a little higher, and do keep out of my way; I can't see a square inch of my dress. Well, it looks a little better than I thought it did at first. Just give that drapery behind a smooth, will you? and pull that ruching up in my neck. There, now, put both your hands around my waist and give it a good, hard smooth down. There, I guess that will do, now. I look very well. But for goodness sake don't ever ask me to let you help me again!"—*Boston Saturday Evening Gazette.*

A Horse Who Can Talk.

Everybody has heard of a "horse laugh," but who has ever seen an equine gifted with the power of speech? Such an animal would be pronounced a miracle; but so would the telegraph and the telephone have been a hundred years ago. Why, even very recently a cure for consumption would have been looked upon as miraculous, but now people are beginning to realize that the disease is not incurable. Dr. Pierce's Golden Medical Discovery will cure it, if taken in time. This world renowned remedy will not make new lungs, but it will restore diseased ones to a healthy state when all other means have failed. Thousands can gratefully testify to this. All druggists.

NOW THEY have "lady White Caps" in Indiana who send around threatening notices to objects of their displeasure. The extent of their severity is not stated, but we presume that in extreme cases they compel men to go to afternoon teas. —*Kansas City Times.*

Rome City for 1889—Excursion Season.

An elegant new station house, capable of protecting fifteen hundred people from sun or rain. The island has been improved, sleeping rooms overhauled, buildings painted, new restaurant and dance hall erected. All the old buildings have been painted, and with two dance halls, enlarged restaurant, with twenty-five new clinker boats added to the already large fleet there, makes Rome City the most attractive, cleanest and best resort for picnics or excursion parties in Indiana.

The lake is large; nicely wooded banks surround it, clean gravel or sand shores; no black muck or wild grass to prevent the landing of row boats at almost any point desired; while those desiring to view the beautiful waters, without partaking of the pleasure of boat-riding, can do so seated upon the lake's beautiful banks, nicely shaded, thus avoiding the hot rays of the burning sun.

THE OAK ROOM AT WINDSOR.

The dining-room at Windsor is only used by the Queen when there is a party of sixteen and upward. The apartment in which Her Majesty habitually lunches and dines is the Oak Room, which opens from the corridor and overlooks the quadrangle. One side of the room is hung with splendid tapestry, which was presented to Her Majesty by Louise Phillippe. At one end is Angeli's first portrait of the Queen, which is faced at the other end by the Duchess of Edinburgh, a picture painted shortly after her marriage. The other pictures are portraits of the Princess of Wales and of the Duchesses of Connaught and Albany.

DR. T. HEMAN BREHMER, an eminent German authority, says: "Consumption is always due to deficient nutrition of the lungs, caused by bad blood." At the Brompton hospital for consumptives, London, England, a statement has been published that 52 per cent. of the patients of that institution have unsuspected kidney disorder. This explains why the proprietors of Warner's Safe Cure claim that they have received many testimonials which they have not published, because of the incredulity with which they would be received were it claimed that Warner's Safe Cure cures consumption. But the fact is that if your kidneys be cured and put in a healthy condition they expel the uric acid and poisonous waste matter, and prevent the irritation of the delicate substances of the lungs, thereby removing the cause. When the effect is removed the symptom of kidney disease, which is called consumption disappears, and with it the irritation which caused it.

Seen in the Heavens.

SIOUX FALLS, Dak., May 2.—A peculiar heavenly phenomenon was seen here last evening. The sky was perfectly clear, except for a long, black cloud in the western horizon, from which protruded immense pillars of fire. They were of a bright red color. The pillars remained for about twenty minutes and disappeared.

In the United States several Danish newspapers are published among which may be mentioned the *Dannevirke*, the *Nordvesten*, and the *Nordiske Blade*. The above cut represents the HOWARD FURNACE, which obtains by its construction, advantages over all others. It is the most Scientific, Practical and Simple heater yet produced. It has the largest radiating surface, wherein the heat is circulated around and contained in the furnace instead of passing directly into the chimney. This furnace does not burn over one ton of coal a month in the coldest weather and in some instances less. This furnace will also heat by means of hot water, thereby reaching distant rooms where hot air cannot. It is low down and can be set in the lowest cellar and still allow hot air pipes to be taken from the top instead of the side of the casting as in all other furnaces.

ARTISTIC DECORATION OF WALLS AND CEILINGS!

We can show you finer WORK than any firm in the city, and more of it than all others put together. When we complete a handsome piece of decorating, the would-be decorators send up their voices in cho us, "me too," "me too," and then try to copy our work. "Imitation is the sincerest flattery," but it takes time even to imitate. Hence, they give you now the style of papering and decorating we did last year. We give you new styles and charge no more than parties who try to learn the art of decorating at your expense, by experimenting on your work.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Free from alcohol and opium; composed of expensive herbs and roots, with fine, delicate flavoring.

SEVENTH POINT

You should read THE CHICAGO DAILY NEWS because *you can afford it.* Price doesn't stand in the way. It's really the cheapest thing on earth. One cent means practically nothing—until you spend it. Then you may make it mean a great deal, according as you invest it. A thing is cheap if it costs little, and is worth much. THE DAILY NEWS is like a telegraph from the whole world to your brain. To keep it in constant working order costs you but one cent a day. That's why it's cheap—because it renders a great service for an insignificant price.

Remember—Its circulation is 220,000 a day—over a million a week—and it costs by mail 25 cts. a month. Two months $1; one year $6. Address

FRIDAY, MAY 3, 1889.

THE DAY'S DOINGS!

Reflected From the Busy World's Mirror and Utilized by Our Reporter for This Column.

Henry Biddle, of Olds wheel works, is on the sick list.

Thomas Walsh, a brakeman on the Pittsburg, is ill at his home on Baker street.

John Crepe, switchman in the Pittsburg yards, who was injured some days ago, has returned to work.

"Jumbo" is the name the boys have given the big steam hammer at the Pittsburg blacksmith shops.

J. M. Hedry, a brakeman on the Pittsburg road, was injured yesterday at Upper Sandusky, while coupling cars.

P. J. Toomey, a fireman on the Wabash Western, is in the city. He is a cousin of Miss Susie Toomey, who is very ill.

The board of directors of the Pennsylvania Railroad company has declared a semi-annual cash dividend of 2½ per cent.

The Fort Wayne Furniture company has received an order for a car load of folding beds to be shipped to Sault Ste. Marie, Mich.

The Bass works are putting up a building fifty by 150 feet in their yards, in the rear of the machine shops, for their castings.

Wm. C. Baade, clerk at the Pittsburg blacksmith shops, will erect a handsome new house on his East Jefferson residence property.

Harmon W. Gerdom, moulder at the Bass foundry, is doing honors to-day over the arrival of a handsome baby boy at his home on Smith street.

C. M. Wheeler, traveling passenger agent of the Missiouri, Kansas and Texas, with headquarters at Indianapolis, was in the city to-day and yesterday.

John Sams, a section hand on the Pittsburg road, had his tongue cut yesterday, by coming in contact with some telegraph wires around which he was working.

The democratic primary election to be held to-morrow afternoon is the topic of interest among the boys in the shops and our reporter found news gathering very hard work this morning.

W. H. Meyers, bill clerk at the Lake Shore freight house, tells us that freight business is brisk on that road. The men have been working, for some time past up until midnight to dispose of the accumulated business.

The only news regarding the towpath railway is that the time for beginning its construction has been fixed by Mr. Keene, the contractor, as June 4. This information comes from a gentleman who is in correspondence with Keene, and who claims that it can be relied upon.

General Manager McCrea, of the Pennsylvania lines west of Pittsburg, has issued a circular to the effect that hereafter individual and private stock cars will not be transported over their lines except when loaded with horses. All other stock must be shipped in cars of the company.

The big steam hammer at the Pittsburg blacksmith shops has been undergoing repairs for several days. The work on it was about completed and it was intended to start it up to-day, but this morning the "head" was busted, while driving it down, and now the hammer will not be ready for use for several days yet.

It is said that as a result of the Baltimore and Ohio competition the Pennsylvania drops its fare from Pittsburg to New York $2. It is rather a surprise to railroad men that the Pennsylvania company took such a step so early in the fight as the Baltimore and Ohio has hardly inaugurated its line between Pittsburg and New York.

The extensive strikes among the coal miners in Pennsylvania and, Ohio and among the trades unions in different parts of the country does not argue well for the present national administration, which, applying the same rules that were urged against the democrats when they were in power, are supposed to be responsible for this condition of affairs.

The management of the Pennsylvania road did not look for a large rush of travel into New York on Sunday, but with the early morning it set in, and landed 35,000 passengers in Jersey City before midnight. By 5 o'clock thirty-two special trains, hauling 305 coaches, arrived at Jersey City, ninety-six of which were loaded with people from the west, and 108 from all parts of the western, southern and middle states.

"Uncle Billy" Rogers, assistant foreman at the Pittsburg boiler shops, tells us that Foreman Barney Fitzpatrick, of the Pittsburg machine shops, is now the owner of a new "fast-stepper." The little colt is just one day old and attracts universal attention around Mr. Fitzpatrick's premises. Mr. Rogers says he knows "by the set of its hind legs" that the animal is a fast stepper and will win distinction in the future on the race course.

At the annual meeting of the stockholders of the Nickel Plate railroad, the old board of directors was re-elected. The net earnings for 1888 were $722,978, against $1,167,474 the year before.

The stopping of Sunday freight traffic is spreading. It is now announced that on all of Jay Gould's southwestern system the plan of the New York Central road is to be adopted. The eastern and western connections of the Jay Gould lines will, doubtless, follow in taking similar action.

THE EAST YARDS.

The Sentinel Representative Sends Us its Spices.

G. D. Adams is confined to his residence by illness.

The east yard hotel is growing in favor with its patrons.

Harry Shaffer, a passenger brakeman, is on duty after an illness.

A cottage is being built on the corner of Walton and Creighton avenues.

Engine 116 has been sold and now bears the name and number, "T., St. L. & K. C., 100."

Will the East Creighton avenue and East Jefferson street car lines be extended to form a belt?

A new bulletin board with improved attachments has been placed in the conductor's room at the east yard office.

The steam shovel that has been operating in the old yard for a week past is a hustler. It loads a car in five minutes.

Reily Evans, conductor on the Cincinnati, Richmond and Fort Wayne, has resumed business after a pleasant sojourn in the wilds of Ohio.

Charlie Lahr, of switch engine 146, sent his horse to Portland with John Grable. When questioned about the matter, John shook his head with a grin and said something about the assessors being in the land.

Purd Davis has returned from Crestline where he had gone to celebrate the centennial. It is said that Purd is a second Chauncey M. Depew as an after diuner speaker. We could refer to his accomplishments in partaking of a repast but will desist.

Notwithstanding there is a falling off of freight traffic on all roads at this season of the year the figures given below show evidence of very fair business: During the month of April 22,181 cars were handled in the yards here, or an average of 739 cars per day.

That Tired Feeling.

Afflicts nearly every one in the spring. The system having become accustomed to the bracing air of winter, is weakened by the warm days of the changing season, and readily yields to attacks of disease. Hood's Sarsaparilla is just the medicine needed. It tones and builds up every part of the body, and also expels all impurities from the blood. Try it this season.

NOT FOR SPORT.

Grocer (to clerk)—What are you doing there, Henry?

Henry—I am picking the dead flies out of these dried currants.

Grocer—You just let 'em alone. Do you suppose that I am running this business for fun? Do you think that I come down here early at morning and toil all day just for the spirit of the thing? You let those flies alone.—*Arkansaw Traveler.*

Forced to Leave Home.

Over 60 people were forced to leave their homes yesterday to call for a free trial package of Lane's Family Medicine. If your blood is bad, your liver and kidneys out of order, if you are constipated and have headache and an unsightly complexion, don't fail to call on any druggist to-day for a free sample of this grand remedy. The ladies praise it. Everyone likes it. Large size package 50 cents.

PETROLEUM EXPLOSIONS.

Experiments made since the late explosion of a petroleum vessel in a French harbor show that a mixture of one part of petroleum vapor to five or less of air does not explode. With six parts of air the mixture is feebly explosive, with seven to twelve parts violently so, with sixteen parts feebly explosive, and with twenty parts of air is not likely to explode.—*Arkansaw Traveler.*

The coroner is said to have remarked that if Pond's Extract had been used, the famous epitaph might have been inscribed on his door-plate instead of his tombstone, slightly changed as thus to meet the exigencies of the case.

Afflictions sore long time he bore,
Physicians were in vain,
When near Death's door, he tried once more,
Pond's Extract cured his pain.

If you do not receive your SENTINEL regularly, please notify us immediately, either in person or by postal card, that we may remedy the fault.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Jan-27-1y

Our little girl when but three weeks old broke out with eczema. We tried the prescription from several good doctors, but without any special benefit. We tried S. S. THE DOG AND THE SHADOW

A Dog, crossing a bridge over a stream with a piece of flesh in his mouth, saw his own shadow in the water, and took it for that of another Dog, with a piece of meat double his own in size. He therefore let go his own, and fiercely attacked the other Dog, to get his larger piece from him. He thus lost both.—*Æsop's Fables.*

It removes from the blood the kidney acid which causes the heart disease.

KAAG'S PALACE.

Completion of Improvements at M. F. Kaag's China and Queensware Store.

For some time past the store of M. F. Kaag, N. 5 East Columbia street, has been undergoing important changes in a complete transformation of the front, by introducing new style plate glass windows, with elegant cut glass ornaments, repainting, etc. Attending these improvements in the front of the store handsome changes have been going on upon the interior, new stock has been placed in the establishment consisting of a complete line of china, queensware, crockery, and goods of like nature. The season is at hand when the housekeeper considers purchases of this kind above all other times, hence it is very important to them to pay this enormously stocked emporium a visit. Mr. Kaag invites every lady in Fort Wayne to call and see his goods before purchasing. If you want a tea set or any other kind, or anything in his line, don't delay, but call at once and see the goods and bargains.

Rev. L. H. Payne, Agent and Trustee of the Orphans' Home at Macon, Ga., Writes a Letter Dated February 5th, 1889.

"I have been using Swift's Specific with the children of the orphans' home under my charge with the best results. I began its use between nine and ten years ago, and have seen many remarkable results.

Quite a number of the children had constitutional blood diseases resulting from the sins of the parents, and every one of these children were cured of the horrible taint by the use of S. S. S.

There have also been scores of children in the institution whose systems (they having been mostly without the benefits of parental care) were enervated by dirt eating and other foul practices. Every one of these children have taken S. S. S. and all have been signally benefited by it. All have been cured who have taken enough of it. We have also two inmates of the home, subject to painful recurring attacks of erysipelas. Neither one improved under the treatment usual for the disease. When all other medicines were discarded and they took S. S. S. the cure in each case was quick and permanent, for they have been well for five years and there has been no return of the disease. I could tell much more of the remarkable cures of blood disease by S. S. S., for I have seen it used and know its value.

L. B. PAYNE.

A Disastrous Fire.

Late Wednesday night, April 24, fire broke out in the enormous clothing and furnishing goods store of the Union Clothing company, 602 Broadway, New York, and before the fire could be controlled over half of the five hundred thousand dollar stock was totally destroyed. The balance was bought up by the New York Salvage Fire Insurance company at forty cents on the dollar. The choicest and undamaged portions were picked out and divided into five lots to be shipped to as many different points. Their agent here in Fort Wayne telegraphed that suitable location could be had. The building located at 176 Calhoun street, corner of Lewis, was secured, and on Saturday, May 4, at 10 a. m., will begin the sale of this immense stock, consisting of the latest patterns of men's, youths', and boy's clothing and furnishing goods, hats, caps, etc. Everything will go at forty cents on the dollar, so come in time, as at the end of fifteen days, May 20, the entire stock and money must be turned over to the Fire Insurance Underwriters. For prices, see our hand-bills, and come in time, to 176 Calhoun street.

FIENDISH OUTRAGES!

An Inoffensive Citizen Taken From His Hotel Room, Cruelly Beaten and Tarred and Feathered.

OSCEOLATOWN, Minn., May 3.—A fiendish outrage was committed here Wednesday night, on the person of an inoffensive citizen named Jake Zeinholt. He was taken from his room at the Cleveland house, bound, gagged and unmercifully beaten. Then he was taken to the outskirts of the town and tarred and feathered. A rope was placed around his neck and he was dragged a mile and left for dead. He recovered sensibility and informed the police. He now lies in a precarious condition, with little hope of his recovery. His assailants were arrested and jailed.

MARION, Ky., May 3.—Masked men, supposed to be White Caps, took Alfred McDowell, living in the eastern portion of the county, and unmercifully whipped him. Robert Kemp, a neighbor of McDowell's, charged him with stealing a bag of wheat. McDowell sued Kemp for damages, and this is supposed to be the reason for "White Capping" him.

EDGERLY, La., May 3.—A merchant named Melwick, living at Blair, La., shot and killed his wife and two children yesterday afternoon. He then set fire to the house and after waiting until the structure was thoroughly enveloped in flames he shot and killed himself.

JACKSON, Mich., May 3.—In the trial yesterday of R. Irving Lolemir, charged with the murder of his mother, the defendant was on the witness stand all day and subjected to a most searching cross examination. The remarkable nerve of the witness never deserted him.

THE OKLAHOMA BOOMERS.

Trouble at Guthrie Over the Laying Out of the Streets—Rice Bailey Is Shot.

GUTHRIE, I. T., May 3.—A strong under current of feeling was displayed here yesterday over the plat of the city as laid off by the city council. It appears that in order to satisfy the greed of certain settlers some of the streets were made much narrower than others and some of the blocks twice as long as others.

This plat of the city was made public yesterday. The marshal, who, by the way, has secured two corner lots for himself, began yesterday to clear the streets of such obstructions as tents and frame buildings. As a consequence some have become suddenly aware that they are living in the streets. Those that were forced out of the streets, immediately proceeded to jump other people's lots. Several were hung in effigy. No trouble occurred, however, and it is safe to say that the good sense that pervades the community will prevent any serious affray.

Miss Nasi Nasuito Daisy, the Oklahoma lady boomer, was shot through the arm by a Santa Fe engineer, named Stafford, who had jumped her claim. Miss Daisy was making a visit to her claim after filing on it, and w s met by Stafford, who fired three shots at her. She is not seriously injured, however. Miss Daisy has friends who have resolved to see her rights protected. It is said Stafford abandoned his engine before 12 o'clock, Monday, in order to stake out the claim.

THE CHICAGO ANARCHISTS.

They Will Unveil the Haymarket Monument, May 30.

CHICAGO, May 3.—On the 30th of May the Haymarket monument is to be unveiled, and that the anarchists are already preparing for the event is evidenced by the issuance of an inflammatory circular, copies of which fell into the hands of the police to-day.

The circular reviews the history of the Haymarket tragedy and asks the anarchists not to forget the fate dealt out by the law to the martyrs who were hung.

The Brewers's Trust.

ST. LOUIS, Mo., May 3.—The brewers's trust is now an established fact, seventeen of the twenty breweries in the combination, and the three outside, the Anheuser-Bush, Lemp and Oberle, have signed to maintain rates for two years. The trust yesterday purchased the Schilling-Schneider brewery for $76,500 and took charge of its business.

Christian Endeavor.

RUSHFORD, Ill., May 3.—The First Methodist church was crowded this morning, when the third annual convention of the Young People's societies of the Christian Endeavor of Illinois was called to order. There will be three sessions daily of the convention until Sunday night.

Indian Missionaries.

POST TOWNSEND, W. T., May 3.—Dr. Sheldon Jackson, commissioner of Indian education of Alaska, left yesterday with a large party of missionaries, who will be stationed among the Indians in all parts of Alaska.

Killed in a Runaway.

TIFFIN, Ohio, May 3.—While A. Shearer was driving in the village of Adrian, this county, yesterday, his team ran away, fatally injuring him and killing his daughter, who was with him.

TEMPERANCE WORKERS.

The Allen County W. C. T. U. Held an Interesting Convention in This City.

The convention held by the Women's Christian Temperance Union of this county, at their headquarters on Harrison street, this week, was a pleasant and interesting affair. The meeting was called to order by the county president, Mrs. Dr. Osso, of Harlan, and the devotional exercises were conducted by Mrs. Mary A. Balch, the state organizer.

A large delegation was present from Harlan and the White Ribbon Glee Club, of that place, contributed largely to the interest of the proceedings by their excellent songs and music. Among the participants who favored the convention with interesting reports of the work done by the union in their localities, and also spoke upon other subjects were: Miss Florence Clark, Mrs. Minnich, Mrs. Hood, Mrs. Stoffer, Miss Fannie Winch, Mrs. Dr. Holloway, Mrs. Graham, and others.

The following county officers were elected:

President—Mrs. M. Jennie Graham.

Secretary, Corresponding and Recording—Mrs. M. B. Gorsline.

Treasurer—Mrs. Helen Hiler.

JUST A SAMPLE

Of the Work Done by the New Republican Mail Officials at Indianapolis.

The Indianapolis *Sentinel* says:

"Several days ago Attorney General Miller attempted to send a very important letter to Joseph Robinson, the well-known editor who lives at 84 East Michigan street, but by mistake Mr. Miller directed the letter to Fort Wayne, where it was opened and found to belong here. The postmaster at Fort Wayne sent the letter to this city with the information that it belonged in Indianapolis. Mr. Robinson is personally known to almost every official in the postoffice, and the veteran carrier, old Billy Williams, has delivered his mail for twenty years at the same place. Notwithstanding all this the 'experts' sent the letter back to Fort Wayne and Mr. Robinson is now telegraphing that city to get possession of it. Mr. Robinson is irate over the matter and says that the stupidity evidenced by the 'experts' is too amazing for comprehension."

SOME FIGURES.

What the Recent Enumeration Tells Us.

Supt. Geo. G. Felts has not received all the figures from the county enumeration, but the city of Fort Wayne is complete.

It gives the number of school children in the city for 1889, between 6 and 21 years of age, at 11,800, against 10,283 for the year of 1888.

In former years the enumeration was more liberal. For instance, in 1886 it was 15,087, and in 1887, 15,165.

The reduction to a fair basis places Fort Wayne below Terre Haute, for there, as well as at Evansville and Indianapolis, the old style guessing at figures is still permitted and accepted by the state superintendent.

The enumeration of male citizens over twenty-one years of age, by Trustee Brackenridge, gives the city 8,500 voters.

LOVE'S YOUNG DREAM.

Maggie May Islett Asks to Have Her Marriage With Wm. M. Burnie Annulled.

The marriage of Maggie May Islett, a school girl aged fourteen, to her first cousin, Wm. M. Burnie, a Pittsburg engineer, last March, will be recalled.

The fellow won the child into marrying him, and procured a license under false pretenses, inducing Rev. S. A. Northrop to marry them.

The affair created an awful stir at the time, but it blew over, and all seemed happy as a dream until this afternoon, when Maggie, through her attorney, M. V. B. Spencer, filed a complaint to set aside the marriage and restore her maiden name.

She alleges that she did not understand the gravity of the situation and lured by the soft words of William, she stepped into the sea of matrimony.

The Weather.

WASHINGTON, May 3.—Indiana—Slightly warmer; fair; winds shifting to southwesterly.

CHILDREN CREMATED!

The Horrible Fate That Overtook a Family by the Burning of a Dwelling House.

BALTIMORE, May 3.—The little residence of Chas. Williams, at Abingdon, a station on the Philadelphia division of the Baltimore and Ohio railroad, near Harford, was burned to the ground last night and four of his children were cremated. Williams was an employe of the Baltimore and Ohio, and his family consisted of his wife and five children, the youngest a babe in its mother's arms.

The family retired at 9 o'clock. About 10 o'clock some of Williams' neighbors saw flames leaping from the windows of the lower floor of his house. The fire spread so quickly over the frame building that nothing could be done to save the inmates. When the neighbors reached the house they saw Williams and his wife, with her baby in her arms, leaping from the second story. They were severely burned. The other four children were not seen and they were burned to death in the house. Their ages range from six to fifteen years.

PEORIA, Iowa, May 3.—An incendiary fire yesterday destroyed four buildings belonging to the Garden City Pickling company, two car loads of harvesting machinery, belonging to Von der Mullen Bros., and other goods. Loss $35,000; insurance unknown.

PEORIA, Ill., May 3.—The Peoria Fuel company suffered a loss of property amounting to $75,000 by an incendiary fire yesterday morning.

PADDY RYAN.

The Ex-Champion Pugilist is Knocked Out by a Newspaper Reporter.

SAN FRANCISCO, May 3.—Paddy Ryan, ex-champion heavy weight, was knocked out Wednesday night by a newspaper reporter weighing about 150 pounds. Ryan insulted Wells, the reporter, who knocked him down three times on the sidewalk. Ryan was finally rescued by his friends. His face was so badly bruised that he did not appear yesterday at the saloon where he is employed as a bouncer.

THE "Q" CONSPIRATORS.

They Are Refused a New Trial and Sentenced by the Judge.

GENEVA, Ill., May 3.—Judge Killum yesterday refused to grant a new trial to the "Q" conspirators, Broderick and Godding, and sentenced them—Broderick to one year in the penitentiary and Godding to a fine of $100 and his share of the costs, which will amount to a little over $200. Broderick asked for sixty days in which to file a bill of exceptions, which was granted.

WASHINGTON.

The British Minister Received by the President.

WASHINGTON, May 3.—Sir Julian Pauncefote, the new British minister, presented his credentials to the president to-day and was formally received by the latter. Secretary Blaine made the presentation at the executive mansion.

The British minister made a speech, which was responded to by the president. Mr. Pauncefote was accompanied by several British attachees.

Acquitted of Murder.

CROWN POINT, Ind., May 3.—Hansen, who killed Brill, of Chicago, at Cedar Lake, was acquitted yesterday, the jury being out but ten minutes. The verdict meets with general approval here. Fear of conviction affected Hansen, so that insanity was apprehended for a time.

A QUAIL FARM.

A correspondent in the *London Field* says: "I mentioned a short time ago that a match had been made by a Russian named Yche with a trotting horse, which is thought a great deal of in his country, but I was unaware that M. Yche is also a large importer of quails. His quails, which are kept in a building, the walls of which are lined with cages holding 100 birds in each, are sent to Paris from the south of Italy up to the middle of November, after which the imports come from Egypt. The birds are fattened after they reach Paris, and it is no uncommon thing for M. Yche to have 50,000 in this building at the same time, while he disposes of about half a million in the course of the twelve months.

YOUR TRUE PAINTER.

There are two characteristics of your true painter wherever you find him: an impartial love for nature as it is, and an almost equal love for the tools of his art. He does not care to idealize or to torture himself in the search for the abstractly beautiful; the naturally beautiful is good enough for him, and he is contented to set himself delightful and not insoluble problems of rendition, and draws infinite pleasure from their resolution. No man has such delight in his work as he. As he does not attempt the impossible, he spared the agony of inevitable failure. His work is the exercise of highly organized and highly trained faculties, and is as natural as the free play of a chi[illegible] and as pleasureable as the exercise of an athlete.—*Kenyon Cox, in Harper's Magazine.*

The democratic nominating primaries occur to-morrow afternoon from 4 to 7 o'clock, except in the Seventh ward where the polls open from 3:30 to 7:30. The democrats should turn out and nominate the best and cleanest men.

Mr. John Butler, long a gate-keeper for the Pittsburg Railroad company, on Broadway, died to-day, aged eighty years. He was injured some time ago by a runaway team and never fully recovered. His nephew, Mr. Jim Butler, is the well known barber.

At the residence of the bride last evening, 156 DeWald street, in the presence of a large company of friends, Mr. James M. Miner was united in marriage to Mrs. Jennie Lambert, by Rev. S. A. Northrop. The tokens of remembrance were numerous and rich. The festive repast was excellent, and everybody went away well pleased, wishing a hundred benedictions on the heads of the happy pair.

Mr. Charles F. Pfeiffer, manager of the Fleming Manufacturing company, has invested a large number of ducats in a bicycle. Mr. Pfeiffer's bachelor reserve has always been a source of wonderment to his hosts of friends, and his fair admirers are wont to feel a tinge of disappointment in the fact that he did not procure a tandem bicycle while he was about it, as it is the popular wheel of to-day, by reason of a capacity for accommodating two riders.

The courts branched out into a triumverate to-day. Judge Chapin, on a change of venue, is hearing the case of Trentman vs. Fletcher, and it will go to the jury this evening. Judge O'Rourke is holding a session of the circuit court in Judge Chapin's room and sent the jury in the McNabb-Baily case out at noon. Mr. S. R. Alden is also holding court for Judge Chapin in his office and a jury was summoned at noon to hear the case of O. P. Morgan vs. Harry L. Worden.

Mr. Will Tigar, a democratic candidate for councilman in the First ward, was approached by some of the brewery agents and asked his position on the question of saloon license. Mr. Tigar, with characteristic manliness, said he favored a high license, in order that the burdens of taxation might be lightened on the people. Now the brewery interests are arrayed against him, not because of his democracy, but because he refuses to hand himself over body and soul to their interests. Mr. Tigar comes from one of the best and ablest democratic families in the city. He is a son of Hon. Thomas Tigar, one of the founders of THE SENTINEL. It remains to be seen whether the people of the First ward will hand their rights over to the brewery interests.

A MIGHTY EMPIRE.

The mighty extent of the Chinese Empire makes this movement all the more important. China is so great that the giving of the mere number of square miles composing it does not convey a proper idea of its size, writes Frank J. Carpenter from Tientsin, China. It is, with its dependencies, about one-third larger than the United States, and it has as many different climates as we have. It has, it is said, about one-tenth of the good farming land on the globe, and it has nearly one-fourth of all the people of the earth under its Government. Think of that! For every man who speaks English the world over, taking Australia, America, and the English colonies into consideration, there are two men who speak Chinese. For every three men who cut their hair or wear it ragged there is one who shaves his front and wears a pig-tail. Of all the men, women, and children in the world, if you mix them up together, the Chinese boy and girl and man and woman rank to all the rest as one is to three, and the race is such that it could swallow up any other people and have room to spare for a good square meal off of two or three nations. It is all under one Government, and it may be that the railroad and the telegraph will at some time so bind it together that its despotic ruler can wield it as one man for good or evil in the work of the world. It is indeed a serious thought, and it is one which the world will ponder upon sooner or later.

It is, however, a possibility which is not far in the future. The backwardness of China is patent to the most unobserving traveler. Tientsin is not over 50 miles from the sea-coast. It is the great distributing point for the great plain of North China, which contains more people than the whole United States. It is a city of nearly a million of people, and it is from here that the supplies of the capital of the Empire, Peking, are sent. Chi Li, the province in which it is located and of which it forms the residence of the Governor, contains 35,000,000 people, and is the center of the trade for North China. The trade of Mongolia and Manchuria comes through Tientsin to be shipped to the sea, and thence over the rest of the world, and thousands of men are employed here in handling the goods.

A VALUABLE CEMENT.

A new cement has been used to renovate many stone buildings of Paris, and is likely to prove useful for various purposes. A powder is made of two parts of oxida of zinz, two of crushed hard limestone, and one of pulverized grit, with a certain proportion of ochre as a coloring agent. A liquid to use with powder consists of six parts of zinc dissolved in commercial muriatic acid, with one part of sal ammoniac, the whole diluted with two-thirds of its volume of water. A pound of powder to two and a half pints of liquid gives a very strong cement.—*Arkansas Traveler.*

STILL AFLOAT.

Hugh Stewart Completes His Bond as Postmaster.

Yesterday Hugh Stewart completed his bond as postmaster at Monroeville. It is in the sum of $11,000 and on it are appended the names of men worth a dozen times that amount.

The names were acknowledged and sent on to Washington for acceptance.

But the war at Monroeville continues. The *Breeze*, this week, reprints a card written by Hugh Stewart some time ago, wherein he said:

To the Editor of the Breeze:

Certain parties, who at present it is not necessary to name and who know better, willfully persist in keeping my name before the people as a candidate for postmaster to succeed our friend, Finan. Allow me to say I am not a candidate, have not been and further will have no candidate I am pushing for the place and have not had one. I had agreed (after others had suggested the man) to support a certain one. But he, of his own accord took himself out of the race. By his act I was released from any obligation to any man and do not expect to have anything further to do with the matter, unless possibly I should be consulted, a contingency not very likely to arise. Respectfully,

HUGH H. STEWART.

The Monroeville republicans, in the face of these assertions, feel that Stewart and others played them false.

Death of Miss Susie Toomey.

At 12 o'clock, noon, to-day, occurred the death of Miss Susie, daughter of Capt. Thomas Toomey. The deceased was of a sunny disposition, and possessed a character becoming to a maiden, obedient, kind and loving. Her death will be sincerely mourned by many. The funeral will take place Sunday at 2 m.

MAN AS WELL AS EMPEROR.

This story is told of the Emperor of Austria: A criminal had been sentenced to death. The death warrant was placed before the Emperor to sign. Convincing proofs of the man's guilt had been produced, and yet a shadow of doubt hovered in the Emperor's mind. He was just about to sign the warrant when he put his pen down, and sat for three hours immovable as a statue and plunged in deep thought. At last he began to write his name, but hardly had he completed the first letters when a tear rolled down his face and blotted the fresh ink. Turning to the Minister in attendance, he said: "See, my tears obliterate my name. I cannot sign this decree," and he tore up the death warrant.—*New York Tribune.*

AT THE CLUB.

A.—It is wonderful how much some people can endure. Here is a case of a man living two months with a ball in his head without complaining.

B.—That's nothing. At this season of the year my wife hasn't got anything but balls in her head, and she never complains. She goes to one two or three times a week.—*Texas Siftings.*

The Postoffice—How's This?

A messenger was hurrying down Calhoun street this afternoon earnestly intent on performing an errand. He had come direct from an influential politician, and it was whispered about that the lad bore some intelligence with reference to the postoffice appointment. The messenger was followed by a newspaper reporter, who saw him enter the clothing store of the Original Pete, and carry away a bundle. It was a suit of clothes the influential politician had previously purchased, and had nothing to do with the postoffice. Do likewise, dear reader, and you will never regret it.

The children's department of the Hoosier Shoe Store contains a complete line of shoes and slippers to supply the wants of the little ones.

B. A. K. HACKETT, Editor and Proprietor.

FRIDAY, MAY 3, 1889.

THE new state laws will be declared in force next week by proclamation of Governor Hovey.

MICHIGAN'S high license law went into effect May 1. New York, New Jersey, and Indiana enjoy, among the northern states, the distinction of being the only ones where there is little or no restriction on the liquor traffic.

THE promised telegraphic competition in Fort Wayne is not to be realized. The Western Union and Postal companies have adopted uniform rates and that is the first step towards consolidation. The Western Union has a great faculty for overcoming trifles.

IN addressing the police force at Indianapolis, the other night, Police Commissioner Henderson, speaking for the metropolitan board, counselled the officers to "a strict observance of the law in its administration without fear or favor." How would something like that sound in Fort Wayne? The worst of it is we need a few men like Mr. Henderson.

AMONG the state governors in the centennial parade, at New York, Governor Hill was voted the most popular, Governor Bulkeley the handsomest, Governor Biggs the most patriarchal, Governor Ames the most indifferent, Governor Gordon the most soldierly, Governor Green the most carefully attired and Governor Beaver the most observed. Where was Governor Hovey all this time?

FROM every part of the country come tidings of strikes. The wage workers are not reaping the harvest that protective tariff oratom painted for them last fall and this has a great deal to do with the trouble. The future is pictured to the toilers by the republicans in its brightest form. Their hopes and plans swell accordingly, but when they reap only broken promises and realize the deceit, the workingmen very naturally turn to force from monopolies the proffered reward.

A VERBAL order has been issued by Postmaster General Wanamaker which prohibits changes in fourth-class postmasters, except for incompetency or bad management, unless the incumbents were appointed two or three years ago. Mr. Wanamaker says that he was induced to direct a stop in changes of postmasters appointed during the past year by learning, when it was too late, that a lot of republicans had been removed unwittingly. They are finding a good civil service record after Mr. Cleveland.

THE New York papers continue to devote much space to the orgies at the inauguration ball, and more and more is the shocking debauchery and shameless conduct becoming known. The ball seems likely to go down in history as one of the most disgraceful affairs ever known, and the festivities generally, were of a character to excite criticism. Even the G. A. R. officers insist that some of their comrades exchanged courtesies with the ex-confederate soldiers. It is a pretty raw altogether.

THE New York *World* remarks that although Mrs. Cleveland is out of office, so to speak, it is evident that she is still to be a factor in politics and society. At the centennial ball she was the recipient of much attention. When she departed from the ball-room she received more consideration than the Harrisons. The ladies rose en masse and threw their boquets in front of her and around her. She literally left the ball upon a roadway of flowers. This was woman's impulsive tribute to womanly grace. But then the men all cheered, too.

SECRETARY JOHNSON, of the state board of health, has returned to Indianapolis from a trip through northern Indiana. He visited several public institutions, among them the Michigan City penitentiary, the Logansport insane hospital and several county jails and poor asylums. He expressed himself as measureably well pleased with his observations at the penitentiary and speaks in higest praise of the Logansport insane asylum. In looking into the poor asylum in Carroll county he found a frightful state of affairs. The insane patients are confined in a cell reeking with filth and the surroundings are described as revolting.

THE legislatures passed a law regarding the publication of legal advertisements in newspapers that is of great interest to the residents of cities. It provides that in cities of 10,000 and over, all liquor license notices, city legal publications, sheriff's sales, delinquent tax sales and administrator's sales shall be published in a daily newspaper; provided the land to be sold lies within the city, or the applicant for license lives in the city. Heretofore all such publications have been made in weekly newspapers. The new law has an emergency clause, and has therefore been in effect since the middle of March.

POSTMASTER GENERAL WANAMAKER has instructed the postmasters at all free delivery postoffices in the country to furnish to the dead letter office a list of streets, avenues and alleys with the highest and lowest house numbers on each, for the use of the department in revising the street directories for free delivery offices. The street directories now in general use in the dead letter office and in all the principal postoffices assisting in the delivery of mail matter are deficient in address. The directory is hardly as deficient, as the system of numbering houses in Fort Wayne, and every other city, for that matter.

ON THE WABASH.

What the Gossips are Saying of the Railroad Men.

Firemen Pugh and Brennan are off with matrimonial intent.

Fireman Gee and wife rejoice in the birth of a brand new son.

Fireman Geo. W. Adams has resumed work and is on the 1561 with Gunton.

Engineer Fisher and Fireman Edwards have been assigned to the 1050 just out of the Fort Wayne shops.

The grand ball to be given by the Andrews railway brakemen occurs this evening, and it promises to be a very pleasant event.

The stars and stripes floated above the office of General Foreman McClure, at Andrews, last Tuesday, as a centennial commemoration of the inauguration of the first president of the United States.

A fine mirror, 34x54 inches, nicely decorated with hand-paintings, and a large handsome rocker, were recently presented to Mrs. J. H. McClure, wife of the general foreman at Andrews, by her many warm friends, for which she extends heart-felt thanks.

Brakemen have been assigned as follows: McDermot and Collins with Hedges; Trowl with Adams; Granger with Whitaker; Hartwick with Martin; Leonard with Carr; O'Mara with Riley; Wood and Donuis with P. Fording, and Needham and Rhamy with Morgan.

Early yesterday morning a car loaded with cotton, standing on the Wabash side-track at North Manchester, was discovered to be on fire, and while a few bales were saved, the remainder of the consignment, together with the car, were consumed. The odor of burning cotton filled the air for several hours before the fire was discovered.

G. P. Roberts, of Lafayette, has been appointed depot master at the Toledo union depot, to succeed W. H. Osgood. Mr. Roberts has been connected with the Wabash many years as line-man in the telegraph department, but was badly hurt a few years ago by being struck by a bridge while riding on top of a freight car, since when he has been unable to do much. He took up the duties of depot master this morning.

HONESTY AND INTELLIGENCE.

It pays to be honest, you say.
Granted.

Yet how many are dishonest through ignorance, expediency, or intentionally. One can be dishonest and yet say nothing.

A clerk who lets a customer buy a damaged piece of goods, a witness who holds back the truth which would clear a prisoner, a medical practitioner who takes his patient's money when he knows he is doing him no good,—all are culpably dishonest.

Speaking of the dishonesty of medical men reminds us that only the past week there has come under our personal observation a form of dishonesty which is almost too mean for narration.

It is generally known that doctors bind themselves by codes, resolutions and oaths not to use any advertised medicines. Now, there is a medicine on the market which, for the past ten years, has accomplished a marvelous amount of good in the cure of Kidney and Liver diseases, and diseases arising from the derangement of these great organs,—we refer to Warner's Safe Cure. So widespread are the merits of this medicine that the majority of the doctors of this country know from actual evidence that it will cure Advanced Kidney Disease, which is but another name for Bright's Disease.

The medical profession have put themselves on record as admitting that there is no cure for this terrible malady, yet there are physicians base enough and dishonest enough to procure Warner's Safe Cure in a surreptitious manner, put the same into plain, four-ounce vials, and charge their patients $2.00 per vial, when a sixteen-ounce bottle of the remedy, in its original package, can be bought at any drug store in the world for $1.25.

Perhaps the doctor argues that the cure of the patient justifies his dishonesty, yet he will boldly stand up at the next county medical meeting and denounce Warner's Safe Cure as a patent medicine, and one which he can not and will not use.

The fact is that the people are waking up to the truth that the medical profession is far from honest, and that it does not possess a monopoly of wisdom in the curing of disease, doctoring the many symptoms of kidney disease, instead of striking at the seat of disease—the kidneys themselves—allowing patients to die rather than use a remedy known to be a specific, simply because it has been advertised, and when patients are dead from Advanced Kidney Disease, still practicing deception by giving the cause of death in their certificate as pneumonia, dropsy, heart disease or some other accompanying effect of Bright's Disease.

All this is prima facie evidence of incompetency, bigotry and dishonesty.

We speak but the truth when we say that Messrs. H. H. Warner & Co., have done a most philanthropic work for the past ten years in educating the people up to the knowledge they now enjoy, especially of maladies growing out of diseases of the Kidneys and Liver, and are deserving of all praise for their honesty and straightforwardness in exposing shams and dishonesty of all kinds.

If the liver and kidneys are sluggish and inactive, Hood's Sarsaparilla will arouse them to prompt and regular action. Take it now.

HOW HE PLAYED LADY MAID.

Mr. Goodman, in the sudden absence of his wife's maid, attempts to help her on with her new winter dress.

He—You just see if I can't help you just as well as that blamed English maid. Confound it, after I've helped you once you'll be wanting me all the time, see if you don't.

She—Well; put it on carefully now over my head. Look out for my hair; I don't see what possessed me to do it up before I put this thing on, though I couldn't have raised my arms, I suppose, afterward. Look out, there's a hook caught in my hairpin. For heaven's sake, Charles, get it one way or the other. I'm stifling, and my hair will be down. There now, that top steel is too high and the cushion interferes with it. Suppose you could get the cushion out? Rip it, pull it, anything! Don't you see it's 8 o'clock? Got it out? Can't you do it? Pull it, I tell you! All right. Now see if it looks too flat. Well, look it, then. Yes, you can, too; it's only a patent hook. Snap it! There, now, hold it so I can get my arms into the sleeves—not way up there—do you take me for a contortionist? Oh, I never can get those sleeves on—grab hold of the arm-holes with both hands, Charles, and give it a good pull up onto my shoulder—tell me if it begins to burst—does it? The veins in my hands will burst, I believe—open that window, will you?—there, now, give me the ends of that belt, will you? —dont tell me, Charles, that you've twisted the waist and I've got to take it off again! Why, how could you have been so stupid? Where were your eyes? No, you can't pull it off that way—pull it off just as you do a glove—there, now do exert yourself to get it right this time. Open that window a little wider, will you? What is the matter? Caught something? Well, never mind. Unhook your watch and let the chain hang on the dress—it won't be likely to fall off, you musn't tear that lace—well, I'll get you another one if you lose it—do get those sleeves on again—there, now, pass me the belt. Oh, that fool of a dressmaker, she's got this so tight, when I told her I wanted to be comfortable. Open that door, will you, so there will be a draught. Now see if you can hook this waist up. No; begin at the bottom. Why, don't you see the hooks and eyes alternate on each side, so as to make it hold? Can't you get it together? Why, pull; I can stand it. Torn your finger nails out? Well, for heaven's sake, Charley, don't notice it now. I've got something we'll put on it after we get home. Can you hook that last hook up on my left shoulder, and then that one down on my right hip? Now, get a good, firm hold of the bottom of my skirt and give it a pull down all round. Now do get out of the way and let me look in the mirror. Heavens! I look like a perfect dump. Tip the mirror up a little more, will you? No, not that way—the other way—and go get me your hand-glass, won't you? Turn the gas up a little higher, and do keep out of my way; I can't see a square inch of my dress. Well, it looks a little better than I thought it did at first. Just give that drapery behind a smooth, will you? and pull that rucking up in my neck. There, now, put both your hands around my waist and give it a good, hard smooth down. There, I guess that will do, now. I look very well. But for goodness sake don't ever ask me to let you help me again!"—*Boston Saturday Evening Gazette.*

A Horse Who Can Talk.

Everybody has heard of a "horse laugh," but who has ever seen an equine gifted with the power of speech? Such an animal would be pronounced a miracle; but so would the telegraph and the telephone have been a hundred years ago. Why, even very recently a cure for consumption would have been looked upon as miraculous, but now people are beginning to realize that the disease is not incurable. Dr. Pierce's Golden Medical Discovery will cure it, if taken in time. This world renowned remedy will not make new lungs, but it will restore diseased ones to a healthy state when all other means have failed. Thousands can gratefully testify to this. All druggists.

NOW THEY have "lady White Caps" in Indiana who send around threatening notices to objects of their displeasure. The extent of their severity is not stated, but we presume that in extreme cases they compel men to go to afternoon teas. —*Kansas City Times.*

Some Cily for 1889- Excursion Season.

An elegant new station house, capable of protecting fifteen hundred people from sun or rain. The island has been improved, sleeping rooms overhauled, buildings painted, new restaurant and dance hall erected. All the old buildings have been painted, and with two dance halls, enlarged restaurant, with twenty-five new dinner boats added to the already large fleet there, makes Rome City the most attractive, cleanest and best resort for picnics or excursion parties in Indiana.

The lake is large; nicely wooded banks surround it, clean gravel or sand shores; no black muck or wild grass to prevent the landing of row boats at almost any point desired; while those desiring to view the beautiful waters, without partaking of the pleasure of boat-riding, can do so seated upon the lake's beautiful banks, nicely shaded, thus avoiding the hot rays of the burning sun.

THE OAK ROOM AT WINDSOR.

The dining-room at Windsor is only used by the Queen when there is a party of sixteen and upward. The apartment in which Her Majesty habitually lunches and dines is the Oak Room, which opens from the corridor and overlooks the quadrangle. One side of the room is hung with splendid tapestry, which was presented to Her Majesty by Louise Phillippe. At one end is Angeli's first portrait of the Queen, which is faced at the other end by the Duchess of Edinburgh, a picture painted shortly after her marriage. The other pictures are portraits of the Princess of Wales and of the Duchesses of Connaught and Albany.

DR. T. HERMAN BIEHNER, an eminent German authority, says: "Consumption is always due to deficient nutrition of the lungs, caused by bad blood." At the Brompton hospital for consumptives, London, England, a statement has been published that 52 per cent. of the patients of that institution have unsuspected kidney disorder. This explains why the proprietors of Warner's Safe Cure claim that they have received many testimonials which they have not published, because of the incredulity with which they would be received were it claimed that Warner's Safe Cure cures consumption. But the fact is that if your kidneys be cured and put in a healthy condition they expel the uric acid and poisonous waste matter, and prevent the irritation of the delicate substances of the lungs, thereby removing the cause. When the effect is removed the symptom of kidney disease, which is called consumption disappears, and with it the irritation which caused it.

Seen in the Heavens.

SIOUX FALLS, Dak., May 2.—A peculiar heavenly phenomenon was seen here last evening. The sky was perfectly clear, except for a long, black cloud in the western horizon, from which protruded immense pillars of fire. They were of a bright red color. The pillars remained for about twenty minutes and disappeared.

DANISH JOURNALS IN AMERICA.

In the United States several Danish newspapers are published among which may be mentioned the *Danneviirke*, the *Nordvesten*, and the *Nordiske Blade*. Owing to the large number of Danes residing in the large cities, and throughout the West and Northwest, all of these appear to enjoy a large patronage and to be doing a paying business.

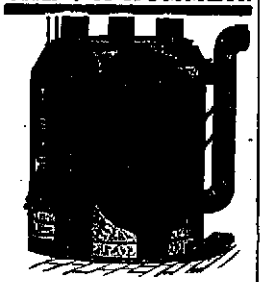
SHE'S A HUMMER!



The above cut represents the HOWARD FURNACE, which obtains by its construction, advantages over all others. It is the most Scientific, Practical and Simple heater yet produced. It has the largest radiating surface, whereby the heat is circulated around and contained in the furnace instead of passing directly into the chimney. This purpose does not burn over one ton of coal a month in the coldest weather and in some instances less. This furnace will also heat by means of hot water. Thereby reaching distant rooms where hot air cannot. It is low down and can be set in the lowest cellar and will allow hot air pipes to be taken from the top instead of the side of the casing as in all other furnaces.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them!

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine of health. Free from alcohol and opium; composed of expensive herbs and roots, with fine, delicate flavoring.

To keep it in constant working order costs you but one cent a day. That's why it's cheap—because it renders a great service for an insignificant price.

Fort Wayne Sentinel.

FRIDAY, MAY 3, 1889.

THE DAY'S DOINGS!

Selected From the Busy World's Mirror and Utilized by Our Reporter for This Column.

Henry Biddle, of Olds wheel works, is on the sick list.

Thomas Walsh, a brakeman on the Pittsburg, is ill at his home on Baker street.

John Crepe, switchman in the Pittsburg yards, who was injured some days ago, has returned to work.

"Jumbo" is the name the boys have given the big steam hammer at the Pittsburg blacksmith shops.

J. M. Hedry, a brakeman on the Pittsburg road, was injured yesterday at Upper Sandusky, while coupling cars.

P. J. Toomey, a fireman on the Wabash Western, is in the city. He is a cousin of Miss Susie Toomey, who is very ill.

The board of directors of the Pennsylvania Railroad company has declared a semi-annual cash dividend of 2½ per cent.

The Fort Wayne Furniture company has received an order for a car load of folding beds to be shipped to Sault Ste. Marie, Mich.

The Bass works are putting up a building fifty by 150 feet in their yards, in the rear of the machine shops, for their castings.

Wm. C. Basde, clerk at the Pittsburg blacksmith shops, will erect a handsome new house on his East Jefferson residence property.

Harmon W. Gerdom, moulder at the Bass foundry, is doing honors to-day over the arrival of a handsome baby boy at his home on Smith street.

C. M. Wheeler, traveling passenger agent of the Missouri, Kansas and Texas, with headquarters at Indianapolis, was in the city to-day and yesterday.

John Sams, a section hand on the Pittsburg road, had his tongue out yesterday, by coming in contact with some telegraph wires around which he was working.

The democratic primary election to be held to-morrow afternoon is the topic of interest among the boys in the shops and our reporter found news gathering very hard work this morning.

W. H. Meyers, bill clerk at the Lake Shore freight house, tells us that freight business is brisk on that road. The men have been working, for some time past up until midnight to dispose of the accumulated business.

The only news regarding the town-path railway is that the time for beginning its construction has been fixed by Mr. Keene, the contractor, as June 4. This information comes from a gentleman who is in correspondence with Keene, and who claims that it can be relied upon.

General Manager McCrea, of the Pennsylvania lines west of Pittsburg, has issued a circular to the effect that hereafter individual and private stock cars will not be transported over their lines except when loaded with horses. All other stock must be shipped in cars of the company.

The big steam hammer at the Pittsburg blacksmith shops has been undergoing repairs for several days. The work on it was about completed and it was intended to start it up to-day, but this morning the "head" was loosed, while driving it down, and now the hammer will not be ready for use for several days yet.

It is said that as a result of the Baltimore and Ohio competition the Pennsylvania drops its fare from Pittsburg to New York $2. It is rather a surprise to railroad men that the Pennsylvania company took such a step so early in the fight as the Baltimore and Ohio has hardly inaugurated its line between Pittsburg and New York.

The extensive strikes among the coal miners in Pennsylvania and, Ohio and among the trades unions in different parts of the country does not argue well for the present national administration, which, applying the same rules that were urged against the democrats when they were in power, are supposed to be responsible for this condition of affairs.

The management of the Pennsylvania road did not look for a large rush of travel into New York on Sunday, but with the early morning it set in, and landed 35,000 passengers in Jersey City before midnight. By 5 o'clock thirty-two special trains, hauling 305 coaches, arrived at Jersey City, ninety-six of which were loaded with people from the west, and 108 from all parts of the western, southern and middle states.

"Uncle Billy" Rogers, assistant foreman at the Pittsburg boiler shops, tells us that Foreman Barney Fitzpatrick, of the Pittsburg machine shops, is now the owner of a new "fast-stepper." The little colt is just one day old and attracts universal attention around Mr. Fitzpatrick's premises. Mr. Rogers says he knows "by the set of its hind legs" that the animal is a fast stepper and will win distinction in the future on the race course.

At the annual meeting of the stockholders of the Nickel Plate railroad the following directors were elected: William K. Vanderbilt, Cornelius Vanderbilt, Frederick W. Vanderbilt, Hamilton McK. Twombly, John S. Kennedy, James A. Roosevelt, Charles M. Hewitt, Daniel W. Caldwell, Jephtha H. Wade, Frank A. Mixener, Frederic P. Olcott, Chauncey M. Depew and Allyn Cox.

The net earnings for 1888 were $722,978, against $1,167,474 the year before.

The stopping of Sunday freight traffic is spreading. It is now announced that on all of Jay Gould's southwestern system the plan of the New York Central road is to be adopted. The eastern and western connections of the Jay Gould lines will, doubtless, follow in taking similar action.

THE KANT YARDS.

The Sentinel Representative Sends Us His Spicea.

G. D. Adams is confined to his residence by illness.

The east yard hotel is growing in favor with its patrons.

Harry Shaffer, a passenger brakeman, is on duty after an illness.

A cottage is being built on the corner of Walton and Creighton avenues.

Engine 116 has been sold and now bears the name and number, "T., St. L. & K. C., 100."

Will the East Creighton avenue and East Jefferson street car lines be extended to form a belt?

A new bulletin board with improved attachments has been placed in the conductor's room at the east yard office.

The steam shovel that has been operating in the old yard for a week past is a hustler. It loads a car in five minutes.

Reily Evans, conductor on the Cincinnati, Richmond and Fort Wayne, has resumed business after a pleasant sojourn in the wilds of Ohio.

Charlie Lahr, of switch engine 146, sent his horse to Portland with John Grable. When questioned about the matter, John shook his head with a grin and said something about the assessors being in the land.

Purd Davis has returned from Crestline where he had gone to celebrate the centennial. It is said that Purd is a second Chauncey M. Depew as an after dinner speaker. We could refer to his accomplishments in partaking of a repast but will desist.

Notwithstanding there is a falling off of freight traffic on all roads at this season of the year the figures given below show evidence of very fair business: During the month of April 22, 181 cars were handled in the yards here, or an average of 739 cars per day.

That Tired Feeling.

Afflicts nearly every one in the spring. The system having become accustomed to the bracing air of winter, is weakened by the warm days of the changing season, and readily yields to attacks of disease. Hood's Sarsaparilla is just the medicine needed. It tones and builds up every part of the body, and also expels all impurities from the blood. Try it this season.

NOT FOR SPORT.

Grocer (to clerk)—What are you doing there, Henry?

Henry—I am picking the dead flies out of these dried currants.

Grocer—You just let 'em alone. Do you suppose that I am running this business for fun? Do you think that I come down here early at morning and toil all day just for the spirit of the thing? You let those flies alone.—*Arkansaw Traveler.*

Forced to Leave Home.

Over 60 people were forced to leave their homes yesterday to call for a free trial package of Lane's Family Medicine. If your blood is bad, your liver and kidneys out of order, if you are constipated and have headache and an unsightly complexion, don't fail to call on any druggist to-day for a free sample of this grand remedy. The ladies praise it. Everyone likes it. Large size package 50 cents.

PETROLEUM EXPLOSIONS.

Experiments made since the late explosion of a petroleum vessel in a French harbor show that a mixture of one part of petroleum vapor to five or less of air does not explode. With six parts of air the mixture is feebly explosive, with seven to twelve parts violently so, with sixteen parts feebly explosive, and with twenty parts of air is not likely to explode.—*Arkansaw Traveler.*

The coroner is said to have remarked that if Pond's Extract had been used, the famous epitaph might have been inscribed on his door-plate instead of his tombstone, slightly changed as thus to meet the exigencies of the case.

Afflictions sore long time he bore,
Physicians were in vain,
When near Death's door, he tried one more,
Pond's Extract cured his pain.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Jan-27-1y

Our Little girl when but three months old broke out with eczema. We tried the prescription from several good doctors, but without any special benefit. We tried S. S. S., and by the time one bottle was gone her head began to heal, and by the time she had taken a bottle and a half she was completely cured. Now she has a full and heavy head of hair—a robust healthy child. I feel it but my duty to make this statement. H. T. SHODE, Rich Hill, Mo.

THE DOG AND THE SHADOW

A Dog, crossing a bridge over a stream with a piece of flesh in his mouth, saw his own shadow in the water, and took it for that of another Dog, with a piece of meat double his own size. He therefore let go his own, and fiercely attacked the other Dog, to get his larger piece from him. He thus lost both. —*Æsop's Fables.*

Some may think that because there are other Soaps that give more in bulk for the money, that they are cheaper; but such bulk is made up with rosin. When quality is sacrificed for quantity, such soap is not cheap at any price. Santa Claus Soap is the best, and is sold by all grocers. It is made only by

MAAG'S PALACE.

Completion of Improvements at M. F. Maag's China and Queensware Store.

If you want a tea set or any other kind, or anything in his line, don't delay, but call at once and see the goods and bargains.

Atlanta Constitution, Feb. 19, 1889.

THE ORPHANS' HOME.

Rev. L. B. Payne, Agent and Trustee of the Orphans' Home at Macon, Ga., Writes a Letter Dated February 5th, 1889.

"I have been using Swift's Specific with the children of the orphans' home under my charge with the best results. I began its use between nine and ten years ago, and have seen many remarkable results.

Quite a number of the children had constitutional blood diseases resulting from the sins of the parents, and every one of these children were cured of the horrible taint by the use of S. S. S.

There have also been scores of children in the institution whose systems (they having been mostly without the benefits of parental care) were enervated by dirt eating and other foul practices. Every one of these children have taken S. S. S. and all have been signally benefited by it. All have been cured who have taken enough of it. We have also two inmates of the home, subject to painful recurring attacks of erysipelas. Neither one improved under the treatment usual for the disease. When all other medicines were discarded and they took S. S. S. the cure in each case was quick and permanent, for they have been well for five years and there has been no return of the disease. I could tell much more of the remarkable cures of blood disease by S. S. S., for I have seen it used and know its value.

L. B. PAYNE.

A Disastrous Fire.

Late Wednesday night, April 24, fire broke out in the enormous clothing and furnishing goods store of the Union Clothing company, 602 Broadway, New York, and before the fire could be controlled over half of the five hundred thousand dollar stock was totally destroyed. The balance was bought up by the New York Salvage Fire Insurance company at forty cents on the dollar. The choicest and undamaged portions were picked out and divided into five lots to be shipped to as many different points. Their agent here in Fort Wayne telegraphed that suitable location could be had. The building located at 176 Calhoun street, corner of Lewis, was secured, and on Saturday, May 4, at 10 a. m., will begin the sale of this immense stock, consisting of the latest patterns of men's, youths', and boy's clothing and furnishing goods, hats, caps, etc. Everything will go at forty cents on the dollar, so come in time, as at the end of fifteen days, May 20, the entire stock and money must be turned over to the Fire Insurance Underwriters. For prices, see our hand-bills, and come in time, to 176 Calhoun street.
